

You taught them  and how to read
and write and how to eat healthy. You
taught them safety  and physical
health...

...But, SOMETHING IS MISSING!

Mental health problems in children are real, common, and treatable. As a parent, I am requesting that my child's health curriculum include education on mental wellness and mental illnesses. This includes teaching about anxiety, depressive disorders, bullying and suicide prevention. I am also requesting that my child's teachers are taught the early warning signs and identification of children's emotional disorders.

Thank you,

(PARENT NAME)

MOMS FOR MENTAL HEALTH
